The PERFECT Chewing Tobacco

Canada Comes First

During the Great War of 1914-18 many rumors were rife and stories in circulation of sedition, espionage, sabotage and threats of sabotage on the part of aliens then residents in this country and in some cases it was found necessary by the authorities to take some action to curb anti-British and anti-Canadian activities in the interest of the country as a whole.

Once again, now that the world is again passing through a period of international tension and while war clouds hover alarmingly over a large area of the globe, similar reports are coming to hand indicating that in some parts of this country subversive influences are at work in an effort to undermine democratic government here and to give aid and comfort to a potential enemy.

Fortunately it can be said at the outset that the great bulk of Canadians are loyal to their own country, to the form of government that has been bequeathed them by their forebears; to the fundamental principles of democracy on which this country has been founded and has been built, including those dearly bought privileges—freedom of speech, freedom of worship, freedom of the press and the right of free assembly.

To those tenets of the right to rule themselves and the right of individual freedom not only do the British-born elements of the community subscribe whole-heartedly and with passion, but also the vast majority of those who have come to this country from lands where other tongues are spoken, the great majority who have taken the oath to support and maintain the constitution of the country of their adoption, the hospitality of which they have sought and are enjoying, together with all the privileges and rights which go with Canadian citizenship.

During the Great War many of these people from other lands, including the countries with which Canada and Great Britain were at war at the time gave many evidences of their loyalty and love for this country which they had adopted. Many of them enlisted with the Canadian forces and served overseas, some of them with marked distinction, while others remained at home to render valuable services in standing those who were inclined to waver between two allegiances. Today, they and their children are honored and respected citizens of the country. Their loyalty to Canadian institutions and the Canadian form of democratic government is beyond all question and that applies to the overwhelming majority of these nationals.

In Our Minds

Unfortunately, however, Western Canada is giving harborage to a small minority, possibly a mere handful, who appear determined to do their utmost to exert a baneful influence over their former compatriots, to create trouble for the authorities and to bring about a change in the present uncertain international situation to undermine, in every possible manner, the government of the country.

Reports are ventilated in the press of the formation of secret, underground organizations of subversive character, of agitations being carried on by small groups and individuals, of seditious utterances, of espionage, of threats of sabotage and in one recent instance of a threat of death against the family of a war veteran who came out openly and condemned such nefarious activities.

Under all these circumstances and with such disquieting occurrences being ventilated it is not surprising that the government of the country is passing resolutions calling upon the government of the country to take immediate steps to repress such activities and to demand the suppression of a foreign language newspaper published in this country, which, if translations of its utterances are correct, is taking a strong anti-British stand in its editorials. While supporting the general principle of the freedom of the press, branches of the Canadian Legion take the stand that suppression of press branches of the press is a measure which is not justified.

It is not surprising, too, to find that such occurrences at home, coupled with the tension overseas, is serving as a stimulus to the registration of war veterans who are not only willing but anxious to serve the interests of their country at home, and when their aid may be required. Such incidents are serving but to rally them to come forward in increasing numbers and register, which is precisely what might be expected.

Action Is Warranted

Recent events give good ground for the government's action in stiffening the law respecting espionage and the government would be quite warranted in adopting some of the measures recommended by war veterans organizations to curb and suppress subversive influence and activities calculated to jeopardize the interests of good loyal Canadians and democratic government in this country.

Just what measure should be taken with this end in view is for the government to decide but whatever steps may be taken, it can be assumed without hesitation that the authorities will be accorded general support by the great majority of Canadians who are loyal to the country and who of practically all those who have come here voluntarily from other lands and have made this country their own and of their descendants.

It must not be overlooked that those who have adopted Canada as their country, who have partaken of her hospitality and enjoyed her freedom and who have sworn allegiance to this country and its constitution have virtually said, and meant it, that "Canada comes first."

Scientists Investigate

To Make Study Of The Youngest Lake In The World

An expedition of seven Russian scientists are now on their way to study the youngest lake in the world, Lake Sarez, in Soviet Central Asia. This baby lake, which is 44 miles long, a mile wide, and 400 feet deep, was born only 28 years ago of a tremendous earth tremor which tore loose an entire mountain from one of the Pamir peaks. It slid into the bed of the Murgab river, 3,000 feet above sea level, creating a natural dam.

A five-acre field of wheat will be grown and harvested on New York State's Fair grounds this summer.

Served Queen Victoria

Loyal Servant Remembered In Her Will Is Dead

John Potlow, for whose future Queen Victoria made provision in her will, has died. Windsor. For 50 years in Royal and naval service, he was from 1880 to 1901 footman and personal attendant to the Queen, and in the closing months of her life he helped to carry her from room to room. He it was who summoned from one of the Pamir peaks. It slid into the bed of the Murgab river, 3,000 feet above sea level, creating a natural dam.

Countries whose names begin with the letter "A" usually end the end of the year.

More Than An Advantage

Aviation Can Also Be A Threat To Any Country

Aviation and wireless are the two inventions of our times that have been the great revolutionizing improvements in human communication: they have brought the people of the world very close to one another, and are a threat to their advantage and their peril.

Mr. McTaggart Cowan, a visitor here, points the moral and adorns the tale of one of these inventions. He says that air passage from Vancouver to London, in 38 hours, will most likely be possible by 1941.

It is an extraordinary prophecy, but the statement of it, of course, is not starting at all. Mr. Cowan suggests, almost as a matter of course, that there will be another year of experimental flight and preparation, then a preliminary trans-Atlantic air-mail service and then mail and passenger service together.

The progress of the newly-inaugurated Trans-Canada air service is the promise and the pattern of the service. The sort of service Mr. Cowan is carrying on at Woodward is the indispensable component of trans-continental and trans-ocean air service. Weather observation is an important phase of it. Aviation is at once the promise and the peril. It has the moral, as well as materially, the heavier-than-air flying machine overlies all the old frontiers of land and sea.

We have realized Pup: "It'll put a griddle round the earth in 40 minutes," and we have had Mercedes and Mars come on in Puck's secret, too—Vancouver Province.

HOME SERVICE

KNOW RIGHT WAYS TO TRAIN YOUR DOG

Two little puppies—eager to grow up to be smart, well-behaved dogs. And so they will when properly trained.

It's not hard to make a puppy understand if you win his confidence during puppyhood. A good rule is to let him know you are the one who feeds him. When necessary speak sharply to him or tap him lightly with a folded newspaper. Time to begin your puppy's "grooming" school when he is about nine months old.

Buy them to teach such clever tricks as "Shake Hands!" When he is sitting position press your hand against the right side of his head. His right paw will naturally rise, and you quickly grab it and say "Shake Hands!" He'll soon get the idea.

Training goes more quickly, is more fun for you and dogs when he's in tip-top form. To have an alert healthy dog, know rules of diet, be able to recognize first signs of illness, especially distemper.

Our 32-page booklet tells you how to analyze symptoms and treat illnesses. Gives valuable instructions on feeding, training, housebreaking, grooming—simple directions for teaching your dog job tricks.

Send 50c in coin for your copy of "How To Cared And Care For Your Dog" to Home Service Dept., Winnipeg Newspaper Union, 175 Mc Dermott Ave. E., Winnipeg.

The following books are also available at 10c in coils each:

171—"How To Plant and Care For Your Garden"

157—"How To Grow and Care For Your Garden"

154—"Etiquette For Young Moderns"

138—"Symptoms For Every Day"

126—"Developing Your Personality"

Oldster Drummer Boy

A. S. Thompson At 83 Years Is With The Territorials

The British army's oldest drummer boy is 83.

He is A. S. Thompson, who joined the Territorials at 17, attained the rank of company-quarter-master-sergeant and then reverted to the rank when he was 50.

Thompson just will not leave the Territorials. He knows that the regulations permit him to serve another five years as a drummer boy in the band, and he intends to take full advantage of them.

Trade routes of Asia Minor, which crossed the east with the west about 2600 B.C., were the first high-ways known.

The bobbin net machine for lace-making was invented by John Heathcock in 1809; John Levers contributed an improvement to it in 1813.

Saved A Life

Quick Delivery Of Letter In England Has Fortunate Result

Because a posted letter reached its destination in less than two hours, a woman's life was saved in England.

In the second morning mail a letter was received at the Gillingham (Kent) Post Office station:

"By the way, the one you receive this I shall be dead."

The writer gave her name and address.

An inspector saw from the postmark that the letter had been posted only two hours earlier, so the police rushed the address and found a woman lying gassed on the floor. Now she has recovered in hospital.

Citrus Bread

Give credit where credit is due, and we laud the citrus fruit growers of Florida. They are now even making bread containing two ounces of grapefruit juice. The claims for the new bread is that it abounds in vitamins and stays fresh longer. Oh well—the bumper crop must be sold.

Moscow, Russia, claims that on an average every inhabitant took 860 rides on buses and cars every day in 1936, nearly six times as many as the average London passenger.

In early times, according to Erasmus, a police clerk started his visit by kissing his host, his hostess, all his children, and the dog and cat.

The oldest extant Sanskrit play, "The Fly Cart," dates from the end of the fourth century.

New Machine Invented

Will Fill Sandbags At The Rate Of 700 An Hour

The filling of sandbags is not part of the lighter side of the soldier's job. Old soldiers must have sweated at the news some weeks ago that the War Office had ordered two hundred million (200,000,000) of the things from the late mills of India. The very thought of so many sandbags waiting to be filled must have made them shudder at the old back ache and the old pain blisters—in anticipation.

Therefore blessed be the names of John Williamson, R. A. Winfield and T. C. Taylor, of the Air Raid Precautions Service at Northampton, England, who have invented a machine to do the job. Operated by four men, the machine can fill sandbags at the rate of 700 an hour. hitherto, by sheer hard manual labor, three men could fill only 60 an hour.

Violent rains in the mid of December caused the troops, till one remembers that the sergeant-major and the national enemy are probably already thinking up new schemes to give the soldiers something to do in their spare time—Montreal Star.

A Long Sleep

South African Woman Asleep For More Than 25 Years

Anno Swanepoel, a South African woman who has been almost comatose asleep for more than 25 years, has been moved from her bed in the Christus Slieck House, Rietfontein, to the Johannesburg General Hospital. She had occupied the bed for 19 years. Attempts are to be made in the hospital to improve her condition, but it is feared that she can never be cured.

Owing to her condition, Miss Swanepoel is still a little girl in her school. She can neither read nor write, for she has never been to school. She spends her few waking hours with dolls.

Although in the last seven years there has been some improvement in her condition, Miss Swanepoel still goes to sleep for weeks at a time. She has a tumor on a gland which stunts the development of the mind and makes her sleep.

Incompetent Convict

The prison warden was examining a new batch of convicts.

"Here," he said to one of them, "sign your name on this blank."

"Borry," said the prisoner, shaking his head; "I can't sign it."

"Can't you write?" asked the warden.

"No, I see," said the warden. He reflected a moment. Then: "What are you here for?"

"Forgery,"

"What?" cried the warden. "How could you be convicted of forgery when you can't even write?"

The convict shook his head again.

"Well, I think I had a bad lawyer!"

Chinese drama is said to have begun during the reign of Emperor Yuan-Tsung, in 720 A.D.

Five seconds is the length of the average dream.

FROM THE FILES OF GLEICHEN CALL TWENTY YEARS AGO

W. W. Brown left to attend the big liberal convention at Ottawa as a Gleichen delegate. He was appointed by Harry Scott as his proxy, who was elected the delegate at the Calgary convention. It is expected W. W. will be our next premier.

Some estimate that the recent hail storm—also crops to the extent of half a million dollars throughout the district it passed over. This is a hard blow to some of our farmers especially those without hail insurance.

Mrs. E. A. Brown, of London, Ont., is visiting with relatives in Gleichen

and district.

F. W. Hess, of the Revelstoke Lumber Co. was in town Sunday, being accompanied with District Superintendent McKenna and Messrs. Bowman, of Minneapolis.

Pte. Allan Quinnell last Friday reached Gleichen from overseas and was as glad to get home again as his relatives and friends were to welcome him. Allan spent about three and half years in the service and looks the better for his experience.

The ladies of the Gleichen U.F.W. A. will give an ice cream lawn social at Mr. J. C. Buckley's farm north of town. A musical program will be rendered and the Gleichen Citizens Band will be in attendance.

When one hundred farmers and

business men of the Gleichen district get together and decide they will do a certain thing, one may at once put it down as success—for so it will be. For months past these men have been meeting regularly to work, plan, devise and scheme to bring about the success of the Gleichen district agricultural fair next week. Other towns are cancelling their fairs owing to drought, hail, etc., but Gleichen is going ahead with its fair. There are \$2,500 offered in prizes. \$500 for sports of all kinds.

The people of this province are probably not aware that there is in force an important act forbidding trading in bad eggs. This was passed at the last session of the provincial legislature and is now in force.

HUGE CIRCUS HAS AIR-CONDITIONED BIG TOP

Rejuvenated and Restyled, Ringling Bros. and Barnum & Bailey Combined Shows Are Cramped With New Thrills

With the world's largest big top air conditioned and restyled in interior decoration, the Big Show—Ringling Bros. and Barnum & Bailey combined circus—boasting the finest performance in the finest setting in its impressive history as the foremost amusement institution of all time will exhibit in Calgary on Tuesday August 16th.

Gargantua the Great, the giant gorilla, the mightiest act in this or any other country, is this season displayed in the world's largest travelling menagerie, where the crowds may gaze close up at him at their leisure. As an adjunct to the menagerie, a horse team, displaying in decorated stalls the 70 Kentucky colts in beautiful bought by John Ringling North, president of the circus, in an around Lexington last fall, connects with it.

Performances start 2:15 and 8:15 p.m. with the new streamline inaugural spectacle "The World Goes to the World's Fair" created, costumed and produced by Charles L. Maize, moving iridescent magnificence under the blue ceiling of the vast tent. Backgrounds of drapes and tasseled curtains, gold and silver centre and quarter poles enhance the beauty of the menagerie, where 2,000 people and animals take part.

Terrell Jacobs, mighty mentor of jungle bred beasts, will present the largest group of performing wild animals ever seen in America—50 lions and tigers.

Gargantua the Great, the world's largest and most ferocious captive gorilla, has grown since last year, and stands 5 feet, 7 inches when erect, weighs around 600 pounds and has an arm stretch of over 9 feet. His huge air conditioned cage is a sight in itself.

The big standard features—the Flying Concellos, the Riding Christians, the Walkmans, the Torrence-Dolores, Dolly Jacobs and her riding leopards and lion, the Pallenbergs and their wonder bears, and all the rest of them are back.

And harness races have come to the big top, the first time in circus history—pounding hoofs, flying manes, flashing sulky wheels.

(Continued from page one) THE WEEK IN EDMONTON

history of the province is reported by the Alberta Hall Insurance Board this year, according to Hon. Solon Low, provincial treasurer. 2,341,000 acres of farm land, involving a total liability in excess of \$10,000,000, are protected. Last year, 2,341,000 acres involving a liability of \$7,115,138 were protected.

Losses to date are considerably lower than last year, the treasurer reported. Storms have been widely scattered and of lesser intensity. Mr. Low recalled that the hall insurance board was re-instituted at the 1938 session of the legislature. Operations of the previous board had been discontinued.

Negotiation which may have a far-reaching effect on highway transportation are now proceeding between railways, oil companies and the Dominion transport board, said Hon. W. A. Fallow, in announcing the suspension of regulations governing trailer licenses. Suspension of the decision to license trailers will continue "until the whole situation has been reviewed to determine what the new changes involve," said the minister, referring to the object of the negotiations.

CARD OF THANKS

Mr. W. W. Brown and family wish to convey their sincere thanks to their friends, for kindness and consideration shown during their late bereavement.

REWARD—Will be paid to the finder of a pair of tortoiseshell spectacles, C. Bruce, Queens Hotel, Gleichen.

Alberta will be urged to help organize a central selling agency for honey. A resolution to this effect was passed by representatives of the honey industry from Ontario, Manitoba and Saskatchewan. These three provinces, together with Alberta and Quebec, are the big five honey producers of Canada. Alberta's contribution is about 2,000,000 pounds to Ontario's 9,000,000.

Regulations governing the licenses of trailers have been suspended. Negotiations are pending for an agreement between railways and oil companies which may have far reaching effect on highway transportation. "Nothing further will be done in the matter until the whole matter has been reviewed to determine what the changes will involve," said Hon. W. A. Fallow.

NOTICE TOWN OF GLEICHEN

Notice is hereby given that the Town Office will be closed from August 21st to August 28th.

W. J. PHYTHIAN,
Secy.-Treas.

WE ALWAYS APPRECIATE THEM

The other day we asked a man for his printing and he told us:

"Oh, our printing doesn't amount to much. All we have is a few small orders, and none of them ever run into anything that looks like money."

Those little orders are the kind that make our business.

Most of our business is in printing letterheads, envelopes, circulars, posters, office forms, and other small orders.

We appreciate a small order as well as we do a big one.

So, if you have any small orders for printing we want you to know that we are glad to get them. We appreciate them just as much—and take just as good care of them—as if they actually amounted to hundreds of dollars.
